

VFR Traffic

The top level of the airspace D control zone is 2500ft MSL. Above this altitude, airspace C covers this area around Hamburg within responsibility of Hamburg East/West Approach. As you can see on the map Hamburg has 8 Visual Reporting Points (VRPs). When entering or leaving the CTR please use the VRPs. State your desired VRP when contacting ATC. Cross VRP in Hamburg at 2000ft or below.
