

Contact Person

The **mentor team of the FIR Langen** is always available for all questions concerning your training. The team is led by the Lead Mentor and the Chiefs of Training (CoTs), who also organise the training. If you have any questions regarding your training, you can contact your CoT at any time. (or any other mentor, of course).

The FIR leadership has nothing to do directly with the controller training, but can of course help you with it and answer questions that arise, or forward them to the responsible mentor.
