

Overview

Niederrhein is a small airport at Germany's border with the Netherlands. It hosts primarily Ryanair flights to and from various destinations; additionally, due to its history as a military air base, it still has some basic military infrastructure and thus sees occasional military flights.

Niederrhein is an unrestricted airport and **part of the [S1 minor program](#)**. TWR can be staffed by all controllers with an **S1** rating or higher who have passed the **required moodle courses**. Further information on the radar stations can be found in the [EDDL SOP](#).

Niederrhein ATC Stations

Station	Station ID	Login	Frequency	Remarks	Endorsement
ATIS	ALV	EDLV_ATIS	124.455	--	--
Tower	LVT	EDLV_TWR	129.405	--	unrestricted: EDLV CBT
Bottrop sector	BOT	EDDL_BOT_APP	119.110	airborne frequency if BOT, DLD, DLA, or PADH is staffed	Tier 1: EDDL_APP
